

DuraVision™ Convex Mirror Product Sheet:

Lookunder Inspection Mirror

DuraVision™ lookunder inspection mirrors are designed for rolling under vehicles and large objects to view and inspect areas which are difficult to see underneath. This mirror features either three or four castor wheels to allow the mirror to be easily manoeuvred. The extra deep convex mirror ensures a wide angle viewing area. Comes complete with fully adjustable handle and drawstring protection bag.

Features

- 2mm acrylic mirror face
- Pure reflective coating
- ACM (Aluminium Composite Material) back for added strength
- Large radius of curvature provides wider area of vision
- Castor wheels for easy positioning in location
- Telescopic handle made from durable, lightweight aluminium
- Handle features twist-lock for extension and hanging hole for easy storage
- Draw-cord protective bag in heavy duty nylon with fleece liner to protect mirror
- Optional base light with hinge plate provides up-lighting to area required

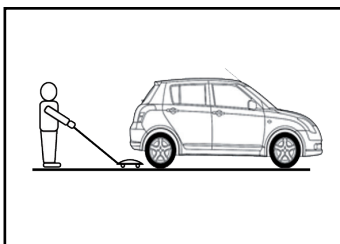

Suitable Uses

- Under and around vehicles
- Bomb inspection
- Customs and security checkpoints
- Police and military services
