

DuraVision™ Convex Mirror Product Sheet:

Stainless Steel Wall Dome

The Unbreakable wall mounted dome gives 180 degrees of vision and is ideal for preventing surprise attacks and collisions in vandal prone areas. The highly polished stainless steel face will resist repeated blows. This mirror works best in areas such as subway / underpass locations, underground corridors and in multi-storey car parks and if attacked with graffiti / spray paint, this can be easily removed with solvents.

Features

- .9mm (18 Gauge) 304 Stainless Steel mirror face
- The curve is designed to maximise the viewing area for added safety
- 7mm Plain holes to take security head fasteners
- Stainless Steel mirror is flame proof
- Optional encapsulating Frame available

Suitable Uses

- Subways and underpasses
- Car parks
- Train stations
- Vandal prone areas
